Driving License: Two Wheeler

Cover Letter

Dear Sir/Madam, I have completed my Industrial Engineering at Thapathali Campus, the only institution in Nepal to give degree on the faculty. Due to interest developed and fostered by the course in fields of human engineering, optimizing techniques for energy uses, lean management, energy efficiency, inventory control and supply chain management, and other optimizing techniques - both in technical and managerial aspect, I want to

pursue my career in these fields. Jagadamba Cement/Group is very reputed organization with high brand value, and it'll be rewarding to attach oneself with this industry where the system, I'm conformed, is of high excellency, and work space for aspiring staffs is well maintained, with aspiration for continuous improvement. I'll be more than blessed to work with such an organization, with the focus that Industrial Engineers work only for positive change. I've attached my CV along with, where the rest of the things regarding qualification has been addressed. Looking forward for positive reply.
